SOLE SOURCE CERTIFICATION

If the item/service is available from more than one source of supply, best price must be determined through the competitive bid process.

B. Describe in lay language, what the item/service is and how it is to be used in your area of research. (cont. P2)

VetCT Inc. provides off site veterinary radiographic procedure interpretation, with a specialty in CT and MRI scans and support for specialty/tertiary care hospitals. The UF CVM is currently short 3 radiologists and needs the ability to have timely diagnosis of diseases for treatment and teaching, and will use VetCT Inc. to fill this incremental capacity.

C. What feature or special condition of this commodity/service is unique and cannot be obtained from any other source? (cont. P2)

UF CVM is currently using VetCT Inc., and to convert to another vendor will cause significant delays in patient care due to IT issues including security reviews, new workflow, etc., and information exchange portal development. VetCT is the only vendor who will review our preliminary reports dictated by our radiology residents and provide feedback - this is key to training our existing residents. True 24/7/365 consultative rapid turn around with offices around the world "open" and ready to read/consult on cases vs. multi-hour delays. Robust quality control system and review of advanced/complicated medical cases as would be seen here at a teaching hospital.
